

# A brief company overview

Matrix Service Company and its subsidiaries

# A total solutions provider

**Matrix Service Company is a top-tier, publicly-traded EPC contractor to the Energy, Power and Industrial markets**

## ASME CERTIFIED FABRICATION FACILITIES

### HEAVY STEEL PLATE

- CATOOSA, OK - One of the most modern heavy steel plate fabricating facilities in the U.S.
- ORANGE, CA

### PIPE SPOOLING & MODULE

- BELLINGHAM, WA
- BAKERSFIELD, CA
- EAST CHICAGO, IN

WORLD CLASS FABRICATION FACILITIES

## PRODUCT FABRICATION/ASSEMBLY PAJU (SEOUL) KOREA

ISO 9001  
QMI-SAI Global

# Houston Interests acquisition

## SYNERGY

The combination of Matrix and Houston Interests brings:

- **Deeper, broader engineering resources**
- **Engineering-led EPC and EPCM contract execution models** for both domestic and international opportunities
- Expansion into **new market segments**
- **Expanded use of technology and engineering FEED studies** as entry point to higher quality opportunities

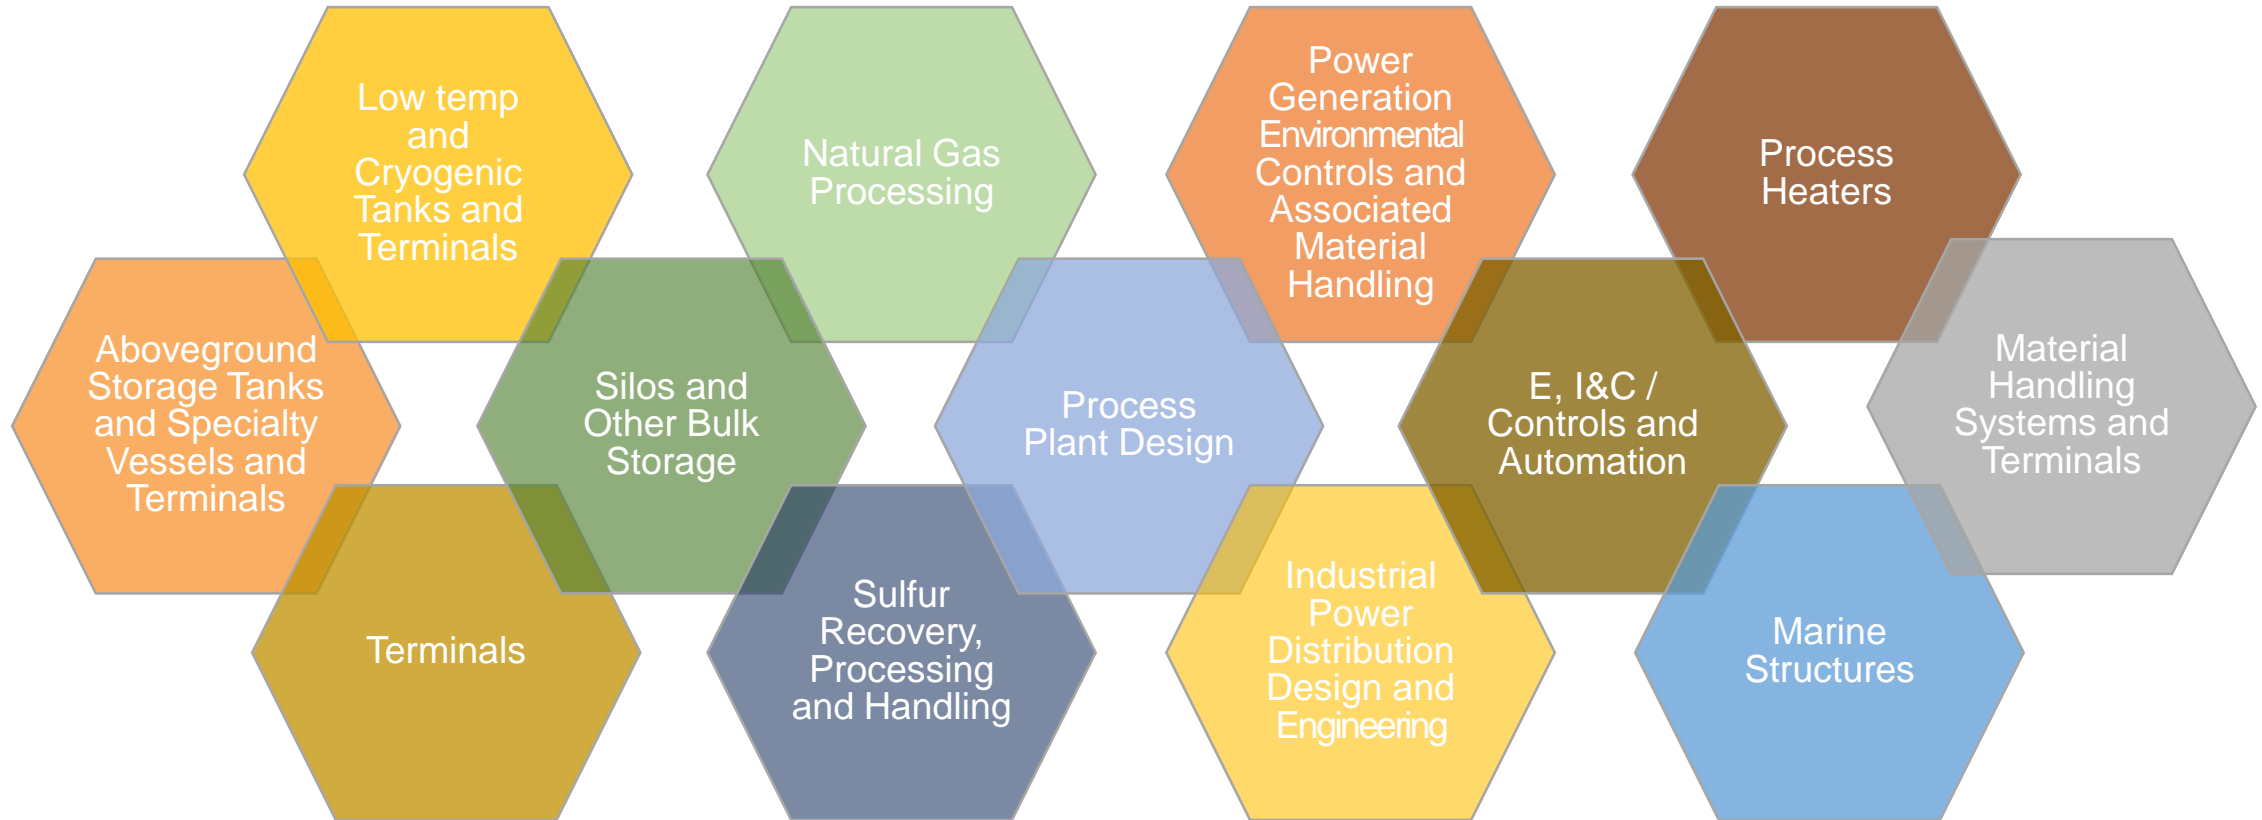

Each brings expertise that enhances or expands existing service offerings.

## COMMON GROUND

Matrix and Houston Interests share much in common ...

- Company **culture**
- Company **values**
- **Markets** served
- **Blue chip clients**
- **Geography**

# SYNERGY | Market strength

The skills and expertise of these combined companies **make the combined organization stronger**

## Global technology integration and services, process design and detail engineering.

### Technology integration and services

- Consulting and technical services
- Feasibility studies, conceptual design, Front End Loading (FEL I, II, III), Front End Engineering & Design (FEED), AACE estimates and preliminary engineering
- Permitting support
- Proprietary sulfur recovery, processing and handling technology
- Process heaters and waste heat recovery units
- GTT LNG membrane tanks
- Electrical, instrumentation and controls / automation and controls systems design, implementation and training
- Start up and commissioning
- Facility condition assessments

### Engineering and design

- Detail design
- AST, low temperature and cryogenic tanks and terminals
- Specialty vessels
- Silos and other bulk storage
- Natural gas processing facilities
- Power generation environmental controls and material handling
- Industrial power distribution design and engineering
- Marine structures
- Material handling systems and terminals
  - Petroleum coke
  - Coal
  - Fertilizer
  - Sulfur
  - Cement
  - Mining and Minerals
  - Grain

## Top-tier solutions for capital projects, turnarounds, maintenance and repair services.

### ELECTRICAL INFRASTRUCTURE

- Power generation facilities
- Substation construction and upgrades
- Transmission & distribution
- Storm restoration

### OIL, GAS & CHEMICAL

- Refinery, gas plants, petrochemical facilities
- Turnarounds and plant services
- Sulfur recovery, processing and handling
- Capital projects
- Small cap repair and construction
- Upstream services
- Industrial cleaning
- Process design and technology

### STORAGE SOLUTIONS

- API 650 storage tanks and terminals
- NGL tanks and terminals
- LNG tanks and terminals
- Other specialty vessels
- Marine bunkering facilities

### INDUSTRIAL

- Sulfur facilities
- Iron and steel
- Mining and minerals
- Bulk material handling
- Cement, fertilizer, grain, ash and coal facilities
- Thermal vacuum chambers
- Other industrial

# Matrix fabrication expertise

**World-class fabrication facilities for heavy steel plate, pipe spooling and modules.**

## ASME CERTIFIED FABRICATION FACILITIES

### HEAVY STEEL PLATE

- **CATOOSA, OK** - One of the most modern heavy steel plate fabricating facilities in the U.S.
- **ORANGE, CA**

### PIPE SPOOLING & MODULE

- **BELLINGHAM, WA**
- **BAKERSFIELD, CA**
- **EAST CHICAGO, IN**

## A growing portfolio of precision engineered, premier industrial products.

- Manufactures and distributes Devco Process Heaters with typical applications in:

- Regeneration gas
- Crude oil
- Cryogenic vaporization
- Ammonia heaters
- Water heaters
- Steam superheaters
- Asphalt heaters
- Tower reboilers
- Natural gas heaters
- Heat transfer media
- Carbon dioxide
- Air heaters

- International manufacturer of AST products:

- Geodesic domes
- Aluminum floating roofs
- Floating roof seals
- Roof drain systems
- Floating suction and skimmer systems
- Headquartered in Sydney, AU with aluminum fabrication/manufacturing facilities in Paju, KR
- Serves customers in more than 85 countries

**ISO 9001**  
QMI-SAI Global

## PRECISION ENGINEERED. PREMIER PRODUCTS.
