

SULFUR FORMING FACILITY

CLIENT - CNPC

LOCATION - South Yolotan, Turkmenistan

COMPLETED - 2012

DESCRIPTION

Following Matrix PDM Engineering's Sinopec Puguang sulfur forming project, which is China's first major sulfur forming facility, CNPC selected Matrix PDM to provide 4,500 TPD of premium product processing capability at the Yolotan Gas Production facility.

Matrix PDM provided sulfur forming unit, controls system, conveyors, sulfur pit, and wind walls.

Commissioned in late 2012, the facility serves the South Yolotan Gas Processing Facility in Turkmenistan.

PRINCIPAL FEATURES

- Engineering
- Sulfur forming
- Controls system
- Material handling
