

SULFUR FORMING FACILITY

CLIENT - Savage Midwest
LOCATION - Chicago, IL
COMPLETED - 2012

DESCRIPTION

In February 2012, Matrix PDM Engineering was awarded the contract to provide the forming unit, controls system, and process building to the Savage Midwest sulfur forming facility in Chicago.

The Chicago facility presented a challenge due to extreme cold (average winter low of 16 - 30°F, 2 - 5°C). Matrix PDM provided climate-controlled Process Building.

PRINCIPAL FEATURES

- 2,200 tpd sulfur forming capacity
- Sulfur forming
- Control system
- Climate controlled process building
